

ModernVet SEO Report — 14 June 2026

Period covered: 8 June → 14 June 2026 (latest tracking window) · **Previous report:** 10 June 2026 (3-week full report) · **Sources:** SEMRush position tracker (mobile + desktop, 4 trackers), SE Ranking, PR-CY

Headline

The June momentum has accelerated. In the four days since the last report, mobile Top 10 climbed again — **63 → 93** keywords (of 144 tracked) — and Top 3 went **19 → 32**. Desktop moved in lockstep: Top 10 **52 → 89**, Top 3 **15 → 34**.

The flagship term sits one place higher: **"vet near me" (vol 5,400) is now #2 on mobile**. Around it the commercial head-term family has consolidated onto page 1 — three of the four "vet clinic / veterinary clinic" variants (2,900 vol each) are now Top 10, and a cluster of 1,300–1,900-volume near-me terms sit at **#2**.

Average ranked position improved on every tracker: mobile main **20.8 → 15.4**, desktop main **28.3 → 16.3**, generic mobile **25.9 → 13.9**, generic desktop **35.9 → 17.4**. SE Ranking's priority dashboard reads average position **8**, visibility **31.6**, and **80% of priority keywords in the Top 10**.

Keyword Distribution — all four trackers (10 Jun → 14 Jun)

Bucket	Mobile main	Desktop main	Generic mobile	Generic desktop
Top 3	19 → 32 (+13)	15 → 34 (+19)	1 → 2 (+1)	1 → 3 (+2)
Top 10	63 → 93 (+30)	52 → 89 (+37)	7 → 19 (+12)	7 → 17 (+10)
Top 20	86 → 104 (+18)	70 → 107 (+37)	15 → 22 (+7)	12 → 19 (+7)
Top 50	122 → 124 (+2)	108 → 127 (+19)	26 → 29 (+3)	20 → 26 (+6)
Ranking (top 100)	137 → 139	139 → 141	30 / 30	27 → 28
Avg position (ranked)	20.8 → 15.4	28.3 → 16.3	25.9 → 13.9	35.9 → 17.4

Read: This window the gains are broad rather than concentrated — every tracker improved its Top 10 count and average position simultaneously. Desktop, which had been the more volatile and lower-ranking surface, closed most of the gap to mobile in a single window (Top 10 52 → 89).

Top 3 — Mobile (144 tracker)

All **nine branded variations** remain **#1 with site links**. The organic Top 3 has expanded to a dense near-me / Dubai-geo cluster:

Keyword	Pos	Δ	Vol
vet near me	2	▲ +5	5,400
veterinary clinic near me	2	▲ +2	1,900
vet clinic near me	2	▲ +4	1,600
pet clinic near me	2	▲ +7	1,300
veterinary dubai	2	▲ +10	880
vet dubai	3	▲ +23	880
pet clinic	3	▲ +37	480
vets	2	▲ +36	170
nearest veterinary clinic	2	▲ +27	90
cat clinic near me	3	▲ +35	70
veterinary hospital near me	2	▲ +2	70
dog clinic near me	3	▲ +37	40

"vet near me" at #2 (5,400 vol) is the single most valuable organic position we hold, and the four near-me terms above 1,300 volume all converging on #2 is the strongest commercial-intent cluster the tracker has shown.

Page 1 inventory — high-volume terms at #4-#10 (mobile)

Keyword	Pos	Vol
veterinary clinics	5	2,900
vet clinic	5	2,900
veterinary clinic	9	2,900
vet clinics	9	2,900
veterinarian near me	6	1,300
vet hospital dubai	5	390
veterinary hospital dubai	6	390
pet hospital dubai	7	390
veterinary hospital	5	320
veterinary clinic dubai near me	4	320

Keyword	Pos	Vol
best vet in dubai	5	260
emergency vet near me	7	210

The "vet clinic / veterinary clinic" head-term family (4 × 2,900 vol) — flagged last cycle as the next Top-10 wave — has now delivered: three of the four are inside the Top 10, with the fourth at #9. That alone represents roughly **11,600 monthly searches** of commercial-intent volume moving onto page 1.

Biggest Climbers — Mobile (144 tracker)

Keyword	Pos	Δ	Vol
veterinary services	14	▲ +79	10
emergency vet	9	▲ +57	110
vet veterinary clinic	9	▲ +53	480
emergency animal hospital	6	▲ +54	10
cat clinic near me	3	▲ +35	70
dog hospital	8	▲ +35	20
pet hospital	6	▲ +33	70
the veterinary clinic	3	▲ +32	30
animal hospital	5	▲ +30	110
vet doctor near me	4	▲ +26	70
vet dubai	3	▲ +23	880

Note: The **emergency cluster recovered** this window — "emergency vet" jumped from #66 to #9 (+57), and "emergency animal hospital" to #6. That cluster was flagged as a decliner in the last report; it has re-entered page 1.

Desktop — Biggest Climbers (145 tracker)

Desktop produced the largest single-window jumps, narrowing its long-standing gap to mobile:

Keyword	Pos	Δ	Vol
vet clinics	8	▲ +62	2,900
vet dubai	4	▲ +71	880
pet hospital dubai	10	▲ +72	390
vet hospital dubai	5	▲ +54	390

Keyword	Pos	Δ	Vol
best veterinary clinic in dubai	7	▲ +73	90
dog hospital near me	3	▲ +85	20
animal hospital dubai	5	▲ +62	20
cat hospital near me	4	▲ +50	40
vet hospital	6	▲ +53	320
pet hospital	6	▲ +56	70

SE Ranking Dashboard (priority keywords, mobile, Dubai)

Metric	Reading	Δ
Average position	8	▲ +2
Traffic forecast	1,151	▲ +86
Visibility	31.6	▲ +5.4
% keywords in Top 10	80%	▲ +5pt

Movement window: **20 ▲ / 4 ▼** with 16 holding. Day-over-day highlights (13 → 14 Jun): animal hospital dubai 22→5, veterinary clinic 20→9, veterinary clinic dubai 20→14, vet clinic 8→5.

PR-CY (desktop, all queries): average position **12.3**, visibility **97.5%**, Top 10 **28** keywords. Strongest desktop positions: vet dubai #4, vets #4, veterinary hospital dubai #5, animal hospital #5, vet clinic #5.

Watch List — Decliners

Keyword	Pos	Δ	Vol	Note
veterinarian	dropped	▼ -53	4,400	Carried over from last report — still the #1 watch item; now out of the top 100
24 hour vet	62	▼ -27	50	Emergency long-tail wobble
vet pet	21	▼ -18	170	Re-shuffle (was #3)
mobile vet near me	45	▼ -14	10	Low volume
vet doctor	19	▼ -11	140	Mid-table slip
vet hospital	20	▼ -11	320	Mid-table slip

Read: Declines are few and mostly low-volume re-shuffles within clusters that gained elsewhere. The one term worth tracking is "**veterinarian**" (**4,400 vol**), which has now slipped out of the top 100 — it was already flagged last cycle. Worth a content / internal-link review on that term, since the rest of the head-term family is performing strongly.

Takeaway

A short window, but a decisive one:

1. **Top 10 grew again on every tracker** — mobile 63 → 93, desktop 52 → 89 — and average ranked position improved across the board. The improvement is now broad, not concentrated.
2. **The 2,900-volume head-term family delivered** — three of four "vet clinic / veterinary clinic" variants are in the Top 10, the wave called out last cycle.
3. **The emergency cluster recovered** from last report's decline (emergency vet #66 → #9).
4. **One item to watch:** "veterinarian" (4,400 vol) has dropped out of the top 100 — the single term not moving with the rest.

Next cycle: confirm the "veterinarian" re-entry, watch whether desktop holds its newly-closed gap to mobile, and track the four near-me terms at #2 for a push to #1.
