Recovery trend is real this week

Average position improved +11.4 across all tracked keywords this week (PR-CY). Traffic is up +63% despite keyword count dipping slightly - remaining keywords are generating better-quality traffic. The March 2026 core update impact is showing early signs of stabilisation.

Keyword count declining - needs monitoring

Organic keyword count dropped -4.8% to 885. While traffic improved this week, continued decline over multiple periods would indicate ongoing rankings erosion. Monitor closely over the next 2-3 weeks.

"veterinary clinic" crash - investigate in GSC immediately

"veterinary clinic" (6,600 monthly searches) dropped from ~#24 to #55 - not a normal fluctuation. Check Google Search Console for the exact drop date. A single sharp event rather than a gradual slide points to a specific page-level quality signal on the URL Google is serving.

3. Competitor Landscape

Ahrefs DR checks across 20+ domains

ModernVet holds the strongest domain in the entire Dubai vet market

ModernVet DR 56 is 2x the nearest real SEO competitor (DKC at DR 28) and 5-56x stronger than everyone else. No competitor in the Dubai vet market should be outranking you on organic results based on domain authority alone.

Key Competitor Profiles

DKC Veterinary Clinic

28

dkc.ae | Motor City | 24/7

24/7 | Emirates Airline Partner | DR 28

Only real SEO competitor. Part of larger DKC group - DR boosted by parent domain. Single location but 24/7 operation directly competes for emergency-intent queries.

Panacea Vets

10

panaceavets.com | Jumeirah 2 | SITE DOWN

Website DOWN | 4.8 stars | 439 Google reviews

Website completely unavailable yet GMB listing shows OPERATIONAL. Ranking in local search on legacy GMB signals alone. Worth flagging as temporarily closed on Google Maps.

British Vet Hospital

6

britishvethospital.com | Al Wasl Rd

RCVS Certified | IPATA Member | 4.1 stars / 237 reviews

RCVS-certified lead vet strong E-E-A-T. IPATA authority in pet relocation niche. Lowest competitor rating (4.1). Strong offline brand, weak online SEO.

Noble Vet JLT

0.7

nobilevet.com | JLT

4.9 stars | 536 reviews | Same area as MV JLT

Near-zero DR but very high rating (4.9) and growing review count. Operating in the same area as Modern Vet JLT - worth monitoring review velocity.

4. Google Maps Intelligence

Live data via Google Places API | 14 April 2026

ModernVet dominates Google Maps by every metric

ModernVet Group has 7,855 total reviews across 9 locations with a group average rating of 4.77 stars. No single competitor clinic comes close to this review volume. JLT (1,726) and Al Wasl (1,758) alone have more reviews than all competitors combined.

ModernVet Group - All Locations

Location	Rating	Reviews	Hours	Status
Modern Vet Hospital (Al Wasl)	4.6 stars	1,758	Open 24 hours	OPERATIONAL
Modern Vet JLT	4.8 stars	1,726	7:00 AM - 10:00 PM	OPERATIONAL
Modern Vet JVC	4.8 stars	1,124	7:00 AM - 10:00 PM	OPERATIONAL

Competitor Google Maps Comparison

Clinic	Rating	Reviews	Hours	Notes
DKC Veterinary	4.5 stars	831	Open 24 hours	Main SEO threat
Noble Vet JLT	4.9 stars	536	10AM - 7PM	High rating, watch
Panacea Vets	4.8 stars	439	8AM - 9PM	Website DOWN
Harmony Vet	4.7 stars	393	10AM - 9PM	Thin content, weak DR
Canadian Vet	4.6 stars	276	9AM - 9PM	Multi-emirate
British Vet Hospital	4.1 stars	237	8AM - 6PM	Lowest rating
The Hills Vet	4.3 stars	78	9AM - 9PM	Very few reviews

Action: Flag Panacea Vets GMB as temporarily closed

Panacea Vets GMB listing shows OPERATIONAL with 439 reviews despite their website being completely down. This is why they still appear in local search results. Flagging the listing as "temporarily closed" on Google Maps would accelerate their local visibility decay.

Action: Grow Azizi Riviera review count

Modern Vet Azizi Riviera is a fresh location with only 133 reviews. A simple review nudge at checkout (QR code or post-visit SMS) would accelerate growth. The clinic is also closed Mon/Sun - consider whether extended hours would increase bookings.

5. Strategic Insights

"veterinary clinic" crash needs a GSC audit today

"veterinary clinic" (6,600 vol) dropped from ~#24 to #55. Check GSC for the exact date. A single sharp drop points to a page-level quality signal rather than a broad algorithm impact. Check if a competitor updated similar content around the same time.

Authority and visibility are decoupled post-March 2026 update

ModernVet has DR 56, next competitor has DR 28, everyone else under DR 10. By traditional SEO logic you should dominate organic rankings. The March 2026 core update reweighted engagement signals (CTR, dwell time, bounce) and local variety - showing different clinics per area. This is a content-experience and user-intent problem, not a backlink problem.

Multilingual content is an unmatched competitive moat

451 EN + 364 RU + 363 AR URLs with correctly implemented hreflang. Zero competitors offer this. Captures the significant Arabic and Russian-speaking expatriate pet owner market in Dubai. This multilingual content drives strong AI citation rates - ChatGPT cites ModernVet on 134 pages. Protect this asset - do not let multilingual pages decay or lose crawl budget.

AI search presence is strong and growing

ModernVet is cited by ChatGPT across 134 pages and has 181 total AI mentions in the UAE. This reflects the quality and depth of written content on the site. As AI-assisted search becomes an increasing share of discovery traffic, this early presence is a durable advantage that competitors cannot quickly replicate.

Hours advantage is underutilised in search signals

ModernVet has 3 locations open until 10PM daily (JLT, JVC, Palm, Downtown) and 2 locations 24 hours (Al Wasl Hospital, Blue Oasis DIP). DKC is the only competitor matching 24hr service. All others close by 9PM at the latest. This hours advantage should be more prominently featured in GMB attributes and on-page content to capture late-night search intent.

6. Action Plan & Scorecard

Priority Actions

IMMEDIATE	1. Investigate "veterinary clinic" drop in Google Search Console Pull position history since Feb 2026. Find the exact drop date. Check for content changes, crawl errors, or algorithm dates on that URL.
IMMEDIATE	2. Flag Panacea Vets GMB as temporarily closed Search Panacea Vets on Google Maps, click "Suggest an edit", mark as temporarily/permanently closed. Their website is down - the listing is misleading searchers.
2 WEEKS	3. Optimise existing location pages for near-me queries Location pages already live at modernvet.com/all-locations/jvc-clinic/ and others. Audit each for local keyword targeting, unique content, LocalBusiness schema, and internal linking from service pages. Pages exist - they just need to work harder for near-me terms.
2 WEEKS	4. Grow Azizi Riviera review count Newest location with only 133 reviews. Add a QR code at checkout or post-visit SMS nudge linking directly to the Google review page.
2 WEEKS	5. Prominently feature 24hr and extended hours in GMB + on-page content Al Wasl (24hr) and JVC/JLT/Palm/Downtown (7AM-10PM) are a genuine competitive advantage. Featured in GMB attributes and on service pages to capture late-night and emergency search intent.
1 MONTH	6. Add FAQ schema to key service pages Structured FAQ markup helps capture featured snippets and increases SERP feature eligibility, particularly for high-intent service pages.
1 MONTH	7. Set up weekly GMB monitoring Automated weekly check of ratings and review counts across all 9 locations. Alert to Telegram if rating drops or review spike detected (potential negative review attack).
