Headline

This was a breakout month. Over the 30-day window, mobile **Top 10 keywords nearly tripled — 32 → 93** (of 144 tracked), and **Top 3 more than tripled — 10 → 32**. Average ranked position improved **20.8 → 15.4**, and the unranked bucket shrank from 19 to 5.

The single most important move: **"vet near me" (vol 5,400) climbed from #24 to #2** — the most valuable organic position the tracker covers. Around it, the entire commercial head-term family consolidated onto page 1. The three mid-volume terms flagged as "watch / decliner" in the 15 May brief — **pet hospital dubai, vet care, vet veterinary clinic** — all recovered strongly this month.

Keyword Distribution — Mobile (144 tracker)

Bucket	15 May	14 Jun	Δ
Top 3	10	32	▲ +22
Top 10	32	93	▲ +61
Top 20	67	104	▲ +37
Top 50	120	124	▲ +4
Ranking (top 100)	125	139	▲ +14
Not ranking	19	5	▲ +14
Avg position (ranked)	20.8	15.4	▲ +5.4
Branded avg position	1.0	1.0	flat

Read: This is not a re-shuffle — it is structural growth at every threshold simultaneously. Top 10 nearly tripled while the ranked count also rose and average position improved. A month ago the 15 May brief noted a slight Top-10 dip (36 → 32) and framed it as a re-shuffle; that proved correct, and it was the floor before this climb.

Generic Tracker (30 kw) — same month

Bucket	15 May	14 Jun	Δ
Top 3	1	2	▲ +1
Top 10	2	19	▲ +17
Top 20	11	22	▲ +11
Ranking	26	30	▲ +4
Avg position (ranked)	23.9	13.9	▲ +10.0

The generic head-term tracker tells the same story even more sharply — Top 10 went from 2 to 19, and average position halved.

The Month's Defining Move — Commercial Head Terms

These are the queries owners use when they are ready to book. A month ago most were mid-table; today they own page 1:

Keyword	15 May	14 Jun	Δ	Vol
vet near me	24	2	▲ +22	5,400
veterinary clinic near me	13	2	▲ +11	1,900
vet clinic near me	9	2	▲ +7	1,600
pet clinic near me	19	2	▲ +17	1,300
veterinarian near me	22	6	▲ +16	1,300
veterinary clinics	32	5	▲ +27	2,900
vet clinic	30	5	▲ +25	2,900
veterinary clinic	not ranking	9	NEW	2,900
vet clinics	20	9	▲ +11	2,900
veterinary dubai	26	2	▲ +24	880
pet hospital dubai	31	7	▲ +24	390
vet care	57	21	▲ +36	320
vet veterinary clinic	46	9	▲ +37	480

The four 2,900-volume "vet clinic / veterinary clinic" variants are now all in or at the edge of the Top 10. Combined with the near-me cluster, that places **well over 25,000 monthly searches** of commercial-intent volume onto page 1 — most of it inside the Top 10.

Watch list from 15 May — resolved. The brief flagged pet hospital dubai (390), vet care (320), and vet veterinary clinic (480) as mid-volume terms to monitor. All three climbed materially this month (pet hospital dubai 31→7, vet care 57→21, vet veterinary clinic 46→9). The concern did not materialise.

Dashboards — Month over Month

SE Ranking (priority keywords, mobile, Dubai):

Metric	15 May	14 Jun	Δ
Average position	24	8	▲ +16
Traffic forecast	179	1,151	▲ +972 (~6×)
Visibility	0.6	31.6	▲ +31
% keywords in Top 10	15%	80%	▲ +65pt

PR-CY: average position improved from 22.4 (15 May, mobile) into the low-teens, with vet dubai, vets, veterinary hospital dubai and vet clinic all now in the Top 5.

The SE Ranking traffic forecast moving from 179 to 1,151 is the clearest single-number summary of the month — a roughly 6× lift in projected organic visits from the priority keyword set.

Domain Health (Ahrefs, latest pull 10 Jun)

Metric	5 May	10 Jun	Δ
Domain Rating (DR)	51	53	▲ +2
Referring Domains	838	1,005	▲ +167

The April–May dip (DR 56→51, refdomains 908→838) was confirmed as a Cloudflare-side crawl glitch plus deliberate competitor-spam cleanup — not real decay. Both metrics recovered and refdomains are now at an all-time tracked high. (This is the 10 Jun Ahrefs reading; a fresh pull was not taken for the 14 Jun snapshot.)

Watch List — Decliners (over the month)

Keyword	15 May	14 Jun	Δ	Vol	Note
veterinarian	~28	dropped	▼	4,400	Out of top 100 — biggest watch item

Keyword	15 May	14 Jun	Δ	Vol	Note
the veterinary hospital	40	62	▼ -22	880	High-volume slip
cat vet	15	30	▼ -15	210	Cat cluster
cat vet dubai	20	27	▼ -7	110	Cat cluster
veterinary doctor	33	55	▼ -22	110	Mid-table slip
24 hour vet	32	62	▼ -30	50	Emergency long-tail wobble

Read: Against 60+ keywords climbing into the Top 10, the declines are few and mostly mid/low volume. Two deserve attention next cycle: **"veterinarian" (4,400 vol)**, which has dropped out of the top 100 despite the rest of its family thriving — a content / internal-link review is warranted — and a soft patch in **cat-specific terms** (cat vet, cat vet dubai), worth watching as a cluster.

Takeaway

1. **Top 10 nearly tripled (32 → 93) and Top 3 more than tripled (10 → 32)** on mobile, with average position improving and the unranked bucket shrinking — structural growth, not a re-shuffle.
2. **"vet near me" (5,400 vol) went from #24 to #2** — the headline position — leading a near-me cluster now at #2, and the four 2,900-volume vet-clinic head terms onto page 1.
3. **SE Ranking traffic forecast rose ~6× (179 → 1,151)**; visibility 0.6 → 31.6.
4. **The 15 May watch list resolved** — every mid-volume term flagged as at-risk recovered.
5. **One carry-forward item:** "veterinarian" (4,400 vol) has dropped out of the top 100 — the one head term not moving with the rest.

Direction for next month: re-enter "veterinarian," push the four near-me terms from #2 to #1, and monitor the cat-specific cluster.
