

ModernVet SEO Report — 10 June 2026

Period covered: 21 May → 10 June 2026 (3 weeks) · **Previous report:** 21 May 2026 (weekly brief) · last full report 6 May 2026 · **Sources:** SEMRush position tracker (mobile + desktop), PR-CY, SE Ranking, Ahrefs API

Headline

This is the strongest period since tracking began. Top 10 keyword count on mobile nearly doubled — **32 → 63** (out of 144 tracked) — and Top 3 went from 10 to **19**. The flagship win: **"vet near me" (vol 5,400) is now #3 on mobile**, alongside a cluster of near-me terms at #3-#6.

Domain health also turned the corner: **Ahrefs DR recovered 51 → 53** and **referring domains jumped 838 → 1,005 (+167)** — confirming the April-May dip was the Cloudflare glitch + spam-cleanup effect, not real decay. DR recovered to 53 by late May and has held; refdomains are at an all-time tracked high.

SE Ranking's priority-20 dashboard tells the same story: average position **24 → 14**, traffic forecast **179 → 449 (+322)**, visibility **0.6 → 4.3**, and **19 keywords up / 0 down** in the latest movement window.

Domain Health

Metric	5 May	10 Jun	Δ
Ahrefs DR	51	53	▲ +2
Ahrefs Referring Domains	838	1,005	▲ +167
Tracked kw ranking (top 100, mobile)	125 / 144	137 / 144	▲ +12
Top 3 (mobile)	10	19	▲ +9
Top 10 (mobile)	32	63	▲ +31
Top 20 (mobile)	67	86	▲ +19
Top 50 (mobile)	120	122	▲ +2
Avg position (ranked, mobile)	20.8	20.8	flat
Branded avg position	1.0	1.0	flat
Not ranking (mobile)	19	7	▲ +12

DR / refdomain recovery confirmed. April 15 → May 5 we reported DR 56 → 51 and refdomains 908 → 838, attributing it to a Cloudflare-side crawl glitch plus deliberate competitor-spam cleanup. Both metrics are now climbing again — refdomains are at an all-time tracked high of 1,005. The cleanup thesis held.

Why avg position is flat while Top 10 doubled: the mid-table compressed — keywords that were 11-25 jumped into the Top 10, while a handful of low-volume long-tail terms slid down the 30-60 range. The distribution shifted exactly where it matters commercially.

Keyword Performance — Mobile (144 tracked, 21 May → 10 Jun)

Distribution

Bucket	15 May	10 Jun	Δ
Top 3	10	19	▲ +9
Top 4-10	22	44	▲ +22
Top 11-20	35	23	mid-table moved up
Top 21-50	53	36	mid-table moved up
51-100	5	15	long-tail wobble
Not ranking	19	7	▲ +12

Top 3 — the near-me sweep

All nine branded variations remain **#1 with site links**. The organic Top 3 now includes:

Keyword	Pos	Δ	Vol
vet near me	3	▲ +5	5,400
vets	3	▲ +25	170
pet hospital near me	3	▲ +19	90
vet hospital near me	3	▲ +3	50
veterinary hospital near me	3	▲ +3	70
veterinary doctor near me	3	▲ +1	70
dog clinic near me	3	▲ +8	40
best vet near me	3	▲ +6	30
emergency veterinarian near me	3	▲ +5	20
vet pet	3	flat	170

"vet near me" at #3 with 5,400 monthly searches is the single most valuable organic position we hold. The near-me cluster dominance pairs directly with GA4's organic-search conversion strength.

Biggest climbers

Keyword	Pos	Δ	Vol
veterinary clinic	20	▲ +44	2,900
nearest veterinary clinic	5	▲ +41	90
veterinary dubai	5	▲ +32	880
vet clinic	10	▲ +29	2,900
vets	3	▲ +25	170
veterinary clinics	7	▲ +21	2,900
city vet al wasl	6	▲ +19	260
veterinary hospital	9	▲ +17	320
vet doctor	8	▲ +15	140
vet clinics	19	▲ +15	2,900
animal emergency clinic	13	▲ +39	10

Read: the "vet clinic / veterinary clinic" head-term family (4 × 2,900 vol variants) moved as a block — two already in the Top 10, two queued at #19–20. This is the next big Top-10 wave.

Page 1 inventory — high-volume terms now at #4–#10

Keyword	Pos	Vol
emergency vet near me	4	210
pet clinic near me	4	1,300
vet clinic near me	4	1,600
veterinary clinic dubai near me	4	320
veterinary dubai	5	880
vet dubai	6	880
veterinarian near me	6	1,300
veterinary clinic near me	6	1,900
pet vet near me	6	110
emergency vet dubai	6	110
veterinary clinics	7	2,900

Keyword	Pos	Vol
vet doctor	8	140
vet hospital / veterinary hospital	9	320 each
vet clinic	10	2,900

That's **over 14,000 monthly searches** of commercial-intent volume sitting on page 1, position 4-10 — the conversion zone.

Watch List — Decliners

Keyword	Pos	Δ	Vol	Note
veterinarian	dropped	—	4,400	Was #28 on 6 May — biggest watch item
emergency vet	66	▼ -46	110	Emergency cluster wobble
vet care	dropped	▼ -40	320	Re-entry candidate
pet vet	dropped	▼ -57	170	Re-entry candidate
cat clinic near me	38	▼ -31	70	Cat cluster — watch
vet doctor near me	30	▼ -28	70	Watching
24 hour vet	35	▼ -18	50	Emergency cluster
cat vet near me	42	▼ -15	90	Cat cluster — watch
vet hospital dubai	23	▼ -13	390	Was #7 on 15 May — re-shuffle

Read: declines concentrate in two clusters — **emergency/24-hour** and **cat-specific terms**. Neither offsets the head-term gains, and the adjacent emergency terms are still ranking well (emergency vet near me #4, emergency vet dubai #6) — this looks like a re-shuffle within the cluster rather than a loss of relevance.

SE Ranking Dashboard (priority 20 kw, mobile, Dubai)

Metric	15 May	10 Jun	Δ
Average position	24	14	▲ 10
Traffic forecast	179	449	▲ +322
Visibility	0.6	4.3	▲ +3.7
% keys in Top 10	15%	45%	▲ +30pt
Movement (latest window)	—	19 ▲ / 0 ▼	all green

Day-over-day movement (9 → 10 Jun) shows the priority set still climbing: pet hospital near me 25→3, animal hospital near me 21→3, veterinary hospital dubai 22→8, vet clinic 41→14, vet 36→20.

PR-CY (desktop, top queries): avg position **14.7** (▲16.3), with vet dubai #5, vet clinic near me #8, vet #9, vet near me #10 — desktop confirming the mobile pattern.

Desktop Snapshot (30 generic kw tracker)

Keyword	Pos	Δ	Vol
veterinary dubai	4	▲ +75	260
vet dubai	6	▲ +68	720
veterinarian near me	8	▲ +8	320
vets	9	▲ +91	210
vet near me	10	▲ +23	1,900
veterinary hospital	10	▲ +90	210
pet hospital	11	▲ +42	170
pet clinic	15	▲ +30	590

Desktop re-entries were dramatic this period (several +60 to +91 jumps). Desktop remains more volatile than mobile but the direction matches.

New Workstream: AI Answer Engine Visibility (8 Jun audit)

A dedicated AI-search audit was completed this period (full report: [AI-search-audit-2026-06-08/](#)). Key findings relevant to SEO:

- ChatGPT lists Modern Vet **#1 for laparoscopic spay and physiotherapy** queries, citing modernvet.com directly
- On general "best vet in Dubai" queries, the citation source is a **third-party directory (vetbai.info)**, not our domain — copy we don't control
- Orthopedic surgery queries route to a single-specialty competitor
- GA4 confirms the channel is real: **AI Assistant traffic converts at the highest engagement rate of any channel** (69%)

SEO task brief delivered to the team — directory/listicle presence and procedure-page depth are the levers. This becomes a recurring report section going forward.

Takeaway

Three weeks, three structural wins:

1. **Top 10 count doubled (32 → 63)** with the gains concentrated on commercial near-me and Dubai-geo head terms — "vet near me" (5,400 vol) at #3 is the headline position.
2. **Backlink profile recovered and surpassed its previous peak** — DR 53, refdomains 1,005. The spring dip is officially behind us.
3. **AI answer engines are now a measured, managed channel** with a clear task list.

Next cycle: watch the "veterinarian" (4,400 vol) re-entry, the vet-clinic head-term family's push from #19–20 into the Top 10, and the emergency/24-hour cluster for recovery.
